## We Got Ourselves A Convoy – from the Eastern States to Perth

Francis Birtles did it in 28 days in the 1912 with driver Syd Ferguson and a Brush Runabout!

Now it's time for the classic Rovers to enjoy the tarmac he didn't have!

A convoy across the Nullarbor is being planned. Tony Cope has recently driven his Jensen Interceptor to and from Perth with other Jensen enthusiasts, and has volunteered to organise a convoy for the WA Rove if there is sufficient interest.

It is planned that all those wishing to convoy across from the east coast meet at **Ceduna**, and then travel about 450 km per day to reach Perth in five days. This allows a leisurely morning start and getting to the next stop mid-afternoon, breakdowns notwithstanding! The overnight stops will be at roadhouses that offer both accommodation and camping to suit all. It will be a loose convoy in that we travel at speeds that suit the car and passengers with a catch up over dinner - and perhaps at stops along the way. It will be a fun way to get to Perth enjoying the company of other Rover enthusiasts and having help should it be needed.

If you are interested please email Tony Cope on [tonywcope@gmail.com](mailto:tonywcope@gmail.com) or call 0448 400 160.

We also have some folk planning a convoy from SA! Safe and enjoyable journeying everyone!

Now back to business.
